कार्यालय आदेश

It has been observed that the verification of various documents/ experience certificates submitted by the tenderers are not being done by the TC members/concerned officers. As a result, some firms have got themselves qualified for the award of work and based the contract on the basis of false experience certificates submitted in support of their eligibility for the award of contract.

It is, therefore, necessary that the genuineness of the documents/ certificates submitted, at least, by the L-1 tenderer whom the work is to be awarded must be verified before the award of work. In case of exigencies, if it is not possible to verify the documents/ certificate before the award of work, the verification must be done immediately after the award of the work and if the documents/ certificates so submitted by the contractor are found to be false, stern action like canceling of the contract/work order including banning of business may be taken against the contractor/ party.

To

The CGM/GM : All Projects.

Dear Sir,

It has been observed that the project repair jobs are being off-loaded to firms who do not have the minimum necessary infrastructure facilities to undertake such repairs.

The Staff Officer (E&M) and (Excv) of your project may be instructed that until and unless they are satisfied with the firm having necessary infrastructure facilities for the particular job, the job should not be awarded to them.

This instruction should be strictly complied without failure.

Yours faithfully,

[Signature]

Sub: Duration of AMC finalized with OEM.

Dear Sir(s),

It has been decided by the NCL authorities that henceforth all the AMCs which are finalized with OEM as negotiated contract (i.e. without tendering), should be finalized for a duration of a long term period of three years so as to avoid repetitive processing.

You are hereby advised to implement the above decisions in all the forthcoming contracts of above nature.

Yours faithfully,

19/4/05
